

## ABGAL Online Set-up Form

To make it easier for you to set up your online ordering, we can **customise** the liner order file for you. To do this, we need your **internet service provider** details as well as your **log-in name, password** and **dial up number** so we can test the transmission of the file. All information will be kept **confidential**. If you are uncomfortable providing us with these details, you can set this file up yourself. However, past experience has suggested it is a much smoother transition when the file has been pre-defined for your orders.

If you want us to set up a file for you, then you need to complete **all** the details below please.

Co. Name: \_\_\_\_\_

Address: \_\_\_\_\_

Contact Person: \_\_\_\_\_

Phone number to contact for questions on markout: \_\_\_\_\_ (*usually a mobile no.*)

Send transport: \_\_\_\_\_ (*"Pick up" or Transport Co. name*)

Internet Service Provider (**ISP**): \_\_\_\_\_ (*E.g. Bigpond*)

Username: \_\_\_\_\_ (*E.g. m\_smith02*)

Password: \_\_\_\_\_ (*E.g. 3xYYab76*)

Dial up number: \_\_\_\_\_ (*To connect to ISP*)

Enter in your Email Server details below (eg: pop.ozemail.com.au):

\_\_\_\_\_ (*leave blank if you are not sure*)

Enter your return Email Address for "Order Received" Confirmation:

\_\_\_\_\_ (*your email address*)

Enter Username for Email Server Authentication (req for Bigpond, Optus):

\_\_\_\_\_ (*leave blank if not sure*)

When we have set up the custom file and tested it, we will email you a file called "abglnr.pwb" which will have all your details stored. It will be a "read only" file which means that you enter in the pool details and SAVE AS another file name so you don't overwrite the standard details and you keep a copy of all pool plans you have created. This file will be sent via email with instructions of where to save it on your PC.
