

Reels

Make it Mobile

Want to move the cover out of the way when you're using the pool? Most ABGAL reels are easily made mobile with the addition of castors. You can order a set when you buy the reel, or retro-fit them at any time.

Below: A reflective over-cover is supplied with every new reel. When a solar cover is rolled up on the reel, the over-cover should ALWAYS be placed on top. The over-cover protects your solar cover from irreparable damage caused by overheating such as 'roller burn'.

A roller makes using a pool blanket 'reel' easy!

www.abgal.com.au

Why an ABGAL reel?

Made with commercial-grade materials, ABGAL reels are lightweight but super-strong and durable. Anodised tubes are adjustable in length for an exact fit - no need to cut to size.

Installation is easy - most people are able to have their reel fully assembled in under 20 minutes.

A 'Reel' Time Saver

A reel makes using a pool blanket easy. It simplifies storage, and allows you to roll your blanket on and off in minutes, without pulling, dragging, or folding. It's quick, easy and can be done with just one person.

Regardless of whether your pool is small or large, above ground, inground or semi-decked, there will be a reel style to suit. Your pool professional will be able to advise on which reel best fits your budget and needs.

Accessories

All ABGAL Reels are supplied with a solar blanket attachment kit (SBSKIT) and protective over-cover (RCOVER) for when your solar blanket is rolled up.

Castor sets are also available (HRCASTOR) and can be fitted to the Arcadia, Apollo or Pegasus at any stage. Simply unscrew the feet and screw in the castors.

Arcadia | HTRB

This stylish but robust design features a practical handwheel at one end, leaving the other end with a simple, low profile triangle shaped frame to reduce visual impact.

- Suits pools up to 6.7m wide
- 310mm height from base to tube
- Low profile, black powder-coated aluminium frame

Advanced Frame Clip | HRA

A simple, lightweight reel. The base clips onto the coping of an above ground pool, allowing the crank end to be lifted and pivot to one side to remove tube from pool when swimming.

- Suits pools up to 5.6m wide
- Optional adaptor clamp for pipe frame pools

Eros | HRAK

Suitable for most models of above ground pool, the HRAK screws onto the pool wall support.

- Suits pools 3 to 6.1m wide
- Fixed leg height

Apollo | HRST,HRST_B

- Suits pools up to 6.7m wide
- Fixed height 395mm from base to tube
- Available in classic white or midnight black
- Adjustable height option available (HRJT) - adjusts 410-555mm - white only.

The Stainless Steel Range

Made with marine grade Stainless Steel ends and crank handles, these modern, minimalist style reels add elegance to any pool landscape.

Pegasus | HSTR

- Stainless Steel ends and crank handle
- Minimalist, streamline design
- Suits pools 2.1m - 6.7m wide

Spartan Bench | HSB D

This durable, modular style bench seat easily holds 15m of Oasis 550 solar cover

- Suits pools up to 5.7m wide
- Commercial quality anodised aluminium bench seat
