Solar Reel

For Inground Solar Pool Covers
Installation Instructions

How To Attach The Strap To The Middle Of The Blanket.

There are two methods to use to fasten the straps to the pool cover. The "double layer" method is where you fold the cover aligned with the tube and fasten through 2 layers to create a stiffer edge to assist the blanket to fold and roll more easily. The "single layer" method is where you fasten the straps through the cover with the screw coming from the under side and the clip and strap on top directly underneath the tube.

Adjust the length of the strap to the middle of the blanket. Refer to Diagram 8 and Diagram 9 for more details on strap placement and adjustment.

Fitting Your Overcover.

The reel kit has been supplied with a protective cover to use when the blanket has been rolled onto the tube. You will need to use the overcover if you do not have one.

Follow the separate instructions for fitting the overcover. Be sure to cover the blanket every time it is rolled onto the tube to protect it from damage.

Make sure the overcover is properly secured to the reel to prevent it from coming off during use.

Warranty

Your Solar Reel system is warranted for a full 12 months, and pro rata for up to 5 years on the components against faulty workmanship. If you find a component is faulty, post it pre-paid to: Hydrottools P/L, DC 6cl % ** 6fck bg'D'UJbg'67, Qld 41% with a copy of your proof of purchase. A replacement will be posted to you.

Frequently asked questions

The tube has a small dent in it, will this affect the performance of the reel?

Provided the tube remains straight, the performance will not be affected by a dent or mark on the tube.

How can I move the reel when the blanket is stored on it?

Your Solar Reel system can be outfitted with heavy-duty castors (optional) and can then be easily rolled about.

Where do I position the reel when I have to fold a section of my blanket?

Position the reel at the opposite end to any section of the blanket that needs to be folded when stored on the reel. The fold creates an extra thickness on one side that will cause the blanket to roll unevenly and therefore this should be kept to a minimum.

INSTALLATION INSTRUCTIONS

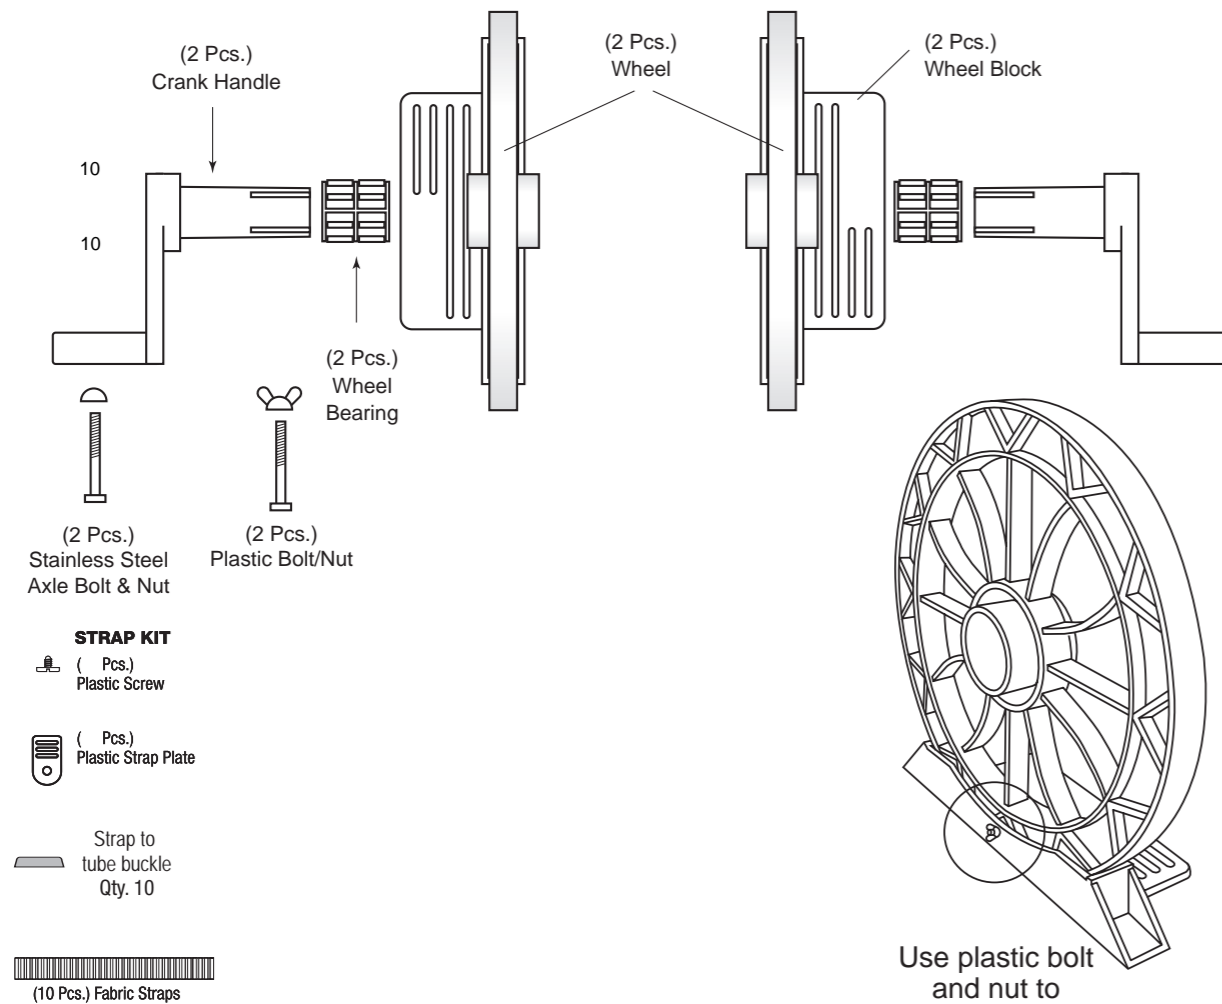

Thank you for purchasing a Hydrotools Pool Roller (reel). Please follow the instructions carefully to protect your warranty and enjoy years of hassle-free use.

Please use your pool blanket and reel in the manner it was intended for:

- Your pool blanket is not a safety cover
- Remove the pool blanket and reel assembly from the pool completely before swimming.
- Do not store the pool blanket on the ground in direct sunlight, as it will shorten the life of the blanket and may damage your lawn.
- Always cover your pool blanket with UdfchVWj Y overcover, when it is stored on the reel.

Preparation And Assembly

Check that you have all the items and assemble as illustrated below. gca Y]hYa ga UmVY'g dd]YX]b hY Vcl 'hUh VbbhU]bg hY'hi VY:

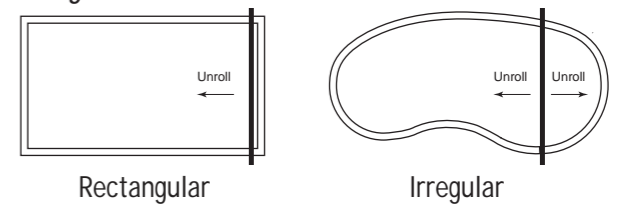

Use plastic bolt and nut to secure wheel to foot pad if desired for stationary use.

Positioning The Pool Roller

For rectangular pools, place Reel at either end of the pool. . : cf]ffY[i 'Uf'g UdYX' dcc' g' d' UW' FYY' Uh' k]XYgh' dc] bh' cZ' hY' dcc' " M' e' ' k]' ' bYX' hc' Z' Ugh' b' hY' V' Ub' Y' hg']' h' i' bk]' bXg']' b' h' c' X]fYV]]' cbg' " FYZf' 8]U[fUa ' & UbX' 8]U[fUa g, / - ' cb' bYl' h' dU[Y"

Fitting The Blanket

Follow the instructions supplied with your pool blanket and fit it to the pool before you attach the blanket to the tube. The blanket will be easier to remove from the pool if it has been trimmed to the exact size of the pool. Small gaps at the edges do not affect the function of the pool blanket. Some pool blankets are trimmed larger than the size of the pool to prevent leaves and debris from entering the water. These can still be used with a storage reel, but can be a little more difficult to operate due to the extra drag caused by the excess material when handling.
