

### The Talos (Battery Powered)

Wish there was an alternative to rolling the cover on and off? Whether it's due to mobility issues, or simply a preference for the luxury of an auto-winder, the Talos is for you. With a sleek, modern design, the Talos can be operated on the unit itself, or via remote control. A powerful 50NM motor recharges via cable, and if required, is easily converted to manual over-ride in just 2 minutes.

TIP: Don't forget to always use the protective over-cover when a cover is rolled, to prevent overheating.

Suggested positioning of a reel for different pool shapes.

# Reel Systems

A blanket roller makes  
using a pool cover 'reel' easy!

Australian Owned & Operated

## Why an ABGAL reel?

Made with commercial-grade materials, ABGAL reels are lightweight but super-strong and durable. Anodised tubes are adjustable in length for an exact fit - no need to cut to size.

Tubes are secured into position with a special locking pin, making them easy to disassemble and pack away for long term storage if desired.

Assembly is simple - all you need is a screwdriver - everything else is in the box - and most people are able to have their reel assembled in well under 20 minutes.

## A 'Reel' Time Saver

Reels makes using a pool blanket much easier, allowing a single person to roll a cover on and off a pool in just a couple of minutes.

Regardless of whether your pool is small or large, above ground, inground or semi-decked, there will be a reel style to suit your pool and budget.

## Accessories

Castor sets are also available and easily fitted to the Arcadia, Apollo or Pegasus. Simply unscrew the feet and screw in the castors.

All ABGAL Reels are supplied with a blanket attachment kit and protective over-cover for when the solar blanket is rolled up.

## Arcadia

This robust design features a handwheel at one end, leaving the other end with a simple, low profile triangle shaped frame to reduce visual impact.

- Suits pools up to 6.1m wide
- 310mm height (base to tube)
- Black powder coated aluminium

## Apollo

The most popular choice.

- Handwheel at either end for easy use
- Suits pools up to 6.7m wide
- Fixed height 395mm from base to tube
- Available in classic white or black
- Adjustable height option available (in white only - adjusts 415-690mm)

## Advanced Frame Clip

Fits above ground pools with a top rail of at least 120mm. Can be lifted & pivoted to one side when swimming.

- Suits pools up to 5.6m wide
- Adaptor clamp for pipe frame pools sold separately

## Eros

Made for above ground pools - screws onto the pool wall support.

- Suits pools 3 to 6.1m wide
- Fixed leg height
- Handwheel at either end

## Neptune

A stylish bench seat reel combo features heavy duty polypropylene ends and a choice of brushed silver aluminium or powdercoated red cedar look top

- Available in 2.5m and 3m modules to suit pools up to 6m wide.

## Pegasus

This stylish, minimalist design features a simple crank handle instead of traditional handwheel, and is available in electro-polished stainless steel, or powdercoated aluminium in black, white and pale grey.

The Pegasus is a great option for those preferring a more streamline design

- Suits pools 2.1m - 6.1m wide
- 340mm height (base to tube)

## Tallos

Fully motorised with remote control, the ultra modern Tallos gives the option for manual crank over-ride should the need arise.

- Suits pools up to 6m wide
- 480mm height from base to tube
- Remote control
- Quick & easy charge via cable
