**ultimate
protection**
for Inground Pools

Ultimate Time Saver

The ABGAL Pooltex™ cover will reduce your time and effort considerably – particularly when it comes to winter maintenance. Leaves and debris will sit on top of the cover, instead of the bottom of your pool. Leaves can then be blown away or swept off before the cover is removed.

Lightweight and easy to use, the cover can be fitted by one person, and folds away into its own storage bag when not in use.

Ultimate Protection

A Pooltex cover is designed for complete pool protection. The strong, woven mesh cover lets rain water in, but keeps blossom, leaves, debris and animals out. Pooltex will slash your chemical consumption, maintenance and electricity costs, and cut evaporation by more than half. This means a smaller carbon footprint, making your pool more environmentally friendly.

Ultimate Fit

Pooltex covers are usually custom made to fit to any pool size or shape – even rocks, ladders and other features are catered for.

Your retailer will organise for a professional installer to measure and fit your cover. Or ask about the rectangular standard sizes available for a budget multi-fit solution.

The low profile, individual rope tie-down fittings attach to the pool coping approximately 1m apart. These fittings remain with the cover when it's removed so there is nothing left protruding on the pool surround.

Pooltex™ Ultra

For areas where heavy dust or ash is a problem, Pooltex Ultra offers the solution. It is an extremely heavy duty cover, made with a solid waterproof fabric. It keeps *everything* out – even water – so requires a syphon or pump. It is not suitable for large pools.

Fastening or removing Pooltex clips is easy as 1, 2, 3!

“Easy to install and a great time saver. Should have done it years ago.”

Mrs Gibbs, Kenmore, Qld

“My first Pooltex Cover lasted 22 years! I have just purchased another one and I am sure this one will last just as long.”

Mrs Mason, Taringa, Qld

“Cover looks smart and is easy to manage.”

Mr Ezzy, Mansfield, Qld

Suitable for commercial pools too!
