

## Ultimate Benefits

- Stops leaves and debris entering your pool
- Reduce your electricity and chemical costs
- Cut evaporation by at least half
- Reduce cleaning time and maintenance
- Keeps out ducks, frogs and toads
- Compatible with most automated cleaners
- Deterrent to children and strength to support the weight of a child or pet, giving you peace of mind

Children must not be left unattended around swimming pools without strict adult supervision even with a cover fitted. Covers do not guarantee the safety of children or pets around swimming pools. Users of covers must read and abide by the maintenance and warning instructions supplied with the cover.

The Pooltex Leafstop Cover comes with an 8 year pro-rata warranty!

Above: Think your pool is too tricky to cover? Ask us - we may have a solution!

Right: Despite being over 10 years old, this Pooltex cover is still keeping uninvited guests out.

 BROPOOLTEX

For year-round  
**pool protection**  
 Makes keeping a cleaner pool easier!

The clips remain attached to the cover at all times.

To fasten is as easy as 1, 2, 3

## Save time and money

The ABGAL Pooltex cover will reduce your time and effort considerably – particularly when it comes to winter maintenance. Leaves and debris will sit on top of the cover instead of the bottom of your pool - which means pool water stays cleaner. Leaves can be blown away or swept off before the cover is removed. Because the water stays cleaner, it reduces stress on the pool filter and vacuum.

## Pool protection

A Pooltex cover is designed for complete pool protection. The strong, woven mesh cover lets rain water in, but keeps blossom, leaves, debris and animals out.

Pooltex will slash your chemical consumption, maintenance and electricity costs, and cut evaporation by more than half. This means a smaller carbon footprint, making your pool more environmentally friendly.

## Tailored to fit

Pooltex covers are custom made to fit to any pool size or shape – spas, decorative rocks, ladders and other features can all be worked around to give your pool cover a neat finish.

If you think you can't have a fitted cover because your pool is an odd shape, or has an infinity edge or water feature - think again! ABGAL have a solution for almost every pool scenario.

## Easy to use

Removing the cover is easily done by one person, and takes around 10 minutes for most pools. Once the tension has been taken off the ropes, the whole cover lifts off (with the clips still attached), and there is nothing left protruding out of the pool surround (see above and above right - image 1).

When putting the cover back on, the pins are simply placed back into the holes and the rope tightened and re-locked – no tools required.

*"My only regret is that we didn't do it years earlier. The pool is much cleaner, and our power bill has dropped too."*

*Noreen B, Brisbane*

*"My first Pooltex Cover lasted 22 years! I have just purchased another one and I am sure this one will last just as long."*

*Mrs Mason, Brisbane*

*"The cover looks great, and has solved my duck problems. Thank you!"*

*Paul W, Melbourne*

Pooltex fits neatly around rocks & water features
